What is Drop Shot And Jump Shot Mod?

Drop Shot makes your soldier drop to the ground automatically each time you fire your weapon making it very difficult for your opponent to shoot you as he is left shooting in the air where you used to be!

When Jump Shot is enabled, your soldier will automatically jump up in the air when you fire your weapon - throwing your opponent's aim off.

How Do I Operate Drop Shot and Jump Shot Mod?

To activate:

- *Hold down mod switch on the back*
- *Tap Circle button (in default button layout). One of the open LEDs will glow **ORANGE** indicating that special feature has been activated.*

To initiate a jump shot or a drop shot, just press the fire- weapon button. Your soldier will jump or drop according to the mode you are currently in (see below).

To scroll to the next mode:

- *Make sure this Mod is ON in order to change to the next modes*
- *Hold down mod switch on the back*
- *Hold down Circle button (in default button layout). A special LED (2,3 or 4) will start blinking in **ORANGE**. When desired mode is reached, release buttons to stop changing modes.*

4 Default Sub-Modes:

- **Mode 1: Drop shot.** A soldier drops automatically when you fire.

- **Mode 2: Drop shot.** A soldier drops automatically when you fire, except if you are scoping.
- **Mode 3: Jump shot.** A soldier jumps automatically when you fire.
- **Mode 4: Jump shot.** A soldier jumps automatically when you fire, except if you are scoping.

To turn OFF:

- *Hold down mod switch on the back*
- *Tap Circle button (in default button layout). A special LED (2, 3 or 4) will turn OFF indicating that this Mode has been turned OFF.*

You can turn OFF all special modes (2, 3 and 4 LEDs) at any time by holding down mod switch on the back and tapping X button. All 2,3 and 4 LEDs will turn off indicating that all special features have been turned OFF.
