What is Zombie Auto Aim Mod?

In the special Campaign arcade mode in COD games, repeatedly pulling the L2 Button will cause the sights to lock-on to the nearest enemy. Zombie mod allows you to auto-aim to the nearest enemy's head or chest when you scope your rifle.

How Do I Operate Zombie Auto Aim Mod?

To activate:

- *Hold down mod switch on the back*
- *Hold down R1 button and then tap L2 button (in default button layout) A special **WHITE** LED will illuminate on an available slot to let you know zombie auto-aim is active. Pull L2 button (in default button layout) like normal to aim and move the target near a zombie, the mod will pulse the scope-weapon button and cause the crosshairs to lock onto the nearest enemy.*

To turn OFF:

- *Hold down mod switch on the back*
- *Hold down R1 button and then tap L2 button (in default button layout). A special **WHITE** LED (2, 3 or 4) will turn OFF indicating that special feature has been turned OFF.*

You can turn OFF all special modes (2, 3 and 4 LEDs) at any time by holding down mod switch on the back and taping X button. All 2, 3 and 4 LEDs will turn off indicating that all special features have been turned OFF.

What Games Is Zombie Auto Aim Mod Compatible With?

Zombie Mode is compatible with Campaign and Zombie modes in Call of Duty games. It is NOT compatible in Multiplayer and Zombie Mode in AW.
