AT GLANCE

In special Campaign and Zombie modes in COD games, repeatedly pulling the Left Trigger will cause the sights to lock-on to the nearest enemy.

Zombie mod allows the player to auto-aim to the nearest enemy's head or chest when scoping a rifle.

There are a few things to keep in mind:

- **Auto Aim Mod doesn't work in the Multiplayer mode**
- **You will still have to keep your crosshair close to the enemy as the Mod won't lock-on to the enemy across the screen**
- **The modchip presses and releases the Aim Buttons a number of times causing your rifle to shake. You can get a better idea about the Mod mechanics via the video:**

IN DEPTH

Turning the Mod ON & OFF

To turn the Mod ON

- Hold down the mod button on the back of the controller.
- Hold down the Right Bumper and then tap the Left Trigger.

1 STEP. HOLD DOWN MOD BUTTON

2 STEP. HOLD DOWN RIGHT BUMPER

3 STEP. TAP LEFT TRIGGER

One of the open LEDs will glow in WHITE indicating that special feature has been activated.

- Pull the Left Trigger like normal to aim and move the target near a zombie, the mod will pulse the scope-weapon button and cause the crosshairs to lock onto the nearest enemy.

To turn the Mod OFF

The mod can be turned OFF the same way it has been turned ON (see above).

Modes located on 2 - 4 LED Indicator slots (Including Zombie) can be turned OFF all at once by holding down the mod button on the back and tapping the button A.

1 STEP. HOLD DOWN MOD BUTTON

2 STEP. TAP A BUTTON

All 2, 3 and 4 LEDs will turn off indicating that all special features have been turned OFF.

Compatible Games

Zombie Mod is compatible with Campaign and Zombie modes in Call of Duty games. The only exception is the AW Zombie.

Happy shooting!
